

Physically Lock Down the Device

It is important to remember that when choosing the installation position of a recorder, it is best practice to not only hide the recorder but to protect it in the event that it is found.

One way this can be achieved is by installing the recorder in a lockable enclosure. Cop Security have multiple lockable enclosures available to purchase.

Lockable Enclosures

Constructed from powder coated steel, Mounting holes to mount the unit securely by its base, The same models can be stacked and bolted together, Anti drill radial lock for added security, Easy cable access at rear.
